BACKSTITCH

ANCHOR	DMC	COLOR
382	—	3371 Black Brown

Note: Not all colors are used in each design.

Quick Tip

Working with Several Floss Colors

When working with frequent color changes, use several needles to avoid rethreading the same needle over and over. Work a few stitches in one color, bring the needle to the front of the fabric, and put it aside. Introduce the next floss color and needle and continue.
