Pattern Instructions

* This pattern can be worked on any fabric type, colour or count you prefer. To work out the size of the finished article, take the number of stitches wide and high and divide it by the count of your fabric (e.g. 14,16,18 count aida etc) to get the size in inches. Times it by 2.54 to get centimetres. We have the sizes in inches shown on the previous page. Also leave at least a few inches of fabric around each side of the design to assist in framing. The higher the fabric count the smaller the completed project will be.

* To put the pattern together look in the top and bottom corners. The page numbers in brackets show which page number it joins up to. Page 1 always starts at the top left hand side of the pattern. Our pages also have a shaded grey section. This indicates a 3 row overlap from adjoining pages to assist with reading the pattern. PLEASE DO NOT RESTITCH THIS AREA.

* You should begin at the centre of the pattern. To find the centre of the pattern it is just a matter of laying the pattern out and locating the arrows at the top and left hand side of the patterns, they are determined by dividing the stitch numbers wide and high in half. Where the two points meet in the middle, that is the centre.

* If you need more assistance to find the middle of your pattern or the page layout, please see the notes section on the colour symbol chart. The easiest way to stitch this pattern, as it has multiple pages, is to stitch one page at a time.

* We suggest using two strands of floss for each stitch and one strand for backstitching if the pattern calls for it.

We hope you enjoy stitching our pattern.

Thanks and Best Wishes
